

Easy 3-Step Installation Guide

Important:

Qdos wants to keep you and your children safe and for that we need you to do your part by carefully reading and following the instructions below.

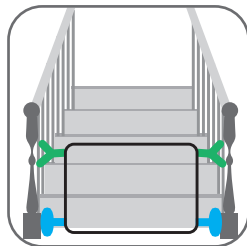

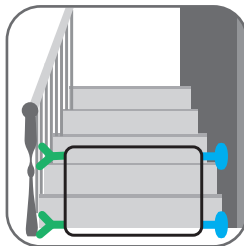

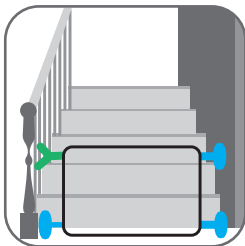

For installation videos and FAQ go to: www.qdossafety.com

Parts List:

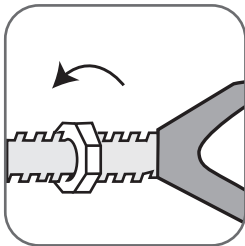

Follow your Qdos gate instructions and replace the standard spindles where needed with Y Spindles.

Step 1

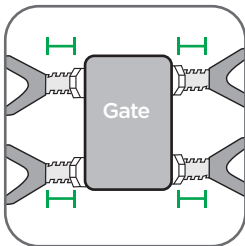

Determine location where you need Y-Spindles and insert the Y-Spindle(s) in those locations.

Step 2

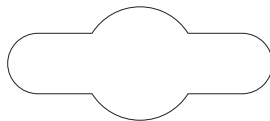

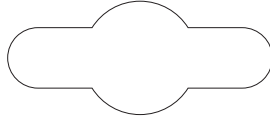

Hand tighten the nuts on all spindles until they are extended equally and touch the banisters/spindles or wall.

Step 3

Using the wrench provided with the gate, and while following the instructions for proper installation of the gate, tighten the four spindles securely.

Need another option for stairs?

Try the

Qdos Stair Mounting Kit

The universal and flexible solution for gate installation on spindles and banisters - Installing a gate in a staircase can be tricky and unsafe. The Qdos Stair Mounting Kit provides a flexible, secure and stable system to attach gates to banisters and spindles

Prevents Damage to your woodwork - The Stair Mounting Kit will protect your woodwork by eliminating the need to screw into your banister.

Works for both Hardware and Pressure mount gates

Works with all brands of gates - There are many different brands of gates on the market. The Stair Mounting Kit is designed to be compatible with all of them

Available in White or Slate to compliment most gates
